CURRENCY EXCHANGE - Money transfers will normally be paid in the currency of the destination country. In some countries, payment is available in U.S. dollars or other alternate currency. In addition to the transfer fees applicable to each transaction, Western Union will apply a currency exchange rate to convert your funds into foreign currency. Any difference between the currency exchange rate given to customers and the currency exchange rate received by Western Union will be kept by Western Union (and, in some instances, its agents) in addition to the transfer fee.

SENDING TO COUNTRIES THAT PROVIDE PAYMENT IN MULTIPLE CURRENCIES: Some Western Union Agents may offer Receivers the choice to receive funds in a currency different from the one that you selected. In such instances, Western Union (or its Agents) may make additional money when your funds are converted into the currency selected by the receiver. However, your recipient may, in some countries, elect

to receive another currency, in which case the currency exchange rate that Western Union applies to your transaction may differ from the one applicable to a transaction paid in the currency you selected.
